

LoRaWAN[®] Wireless Door/ Window Sensors

MultiTech LoRaWAN[®] Wireless Door/Window Sensors detect the proximity or lack of proximity of a magnet to wirelessly alert the user of a change.

Applications for these wireless proximity door/window sensors include open/close events, secure storage for cabinets and lock boxes, and general proximity to detect a magnet near the sensor.

LoRaWAN wireless sensors make it easy to connect sensor data to your applications. Best in class RF performance enables sensors to work in environments where others fail. Advanced power management provides maximum battery life, improved LoRaWAN network performance and capacity. Sensors can be configured over the air, before and after installation. This enables them to be optimized, for the most optimum reporting intervals or thresholds to provide the data that is important to your application, when you need it.

BENEFITS

- Open architecture for flexible integration with any LoRaWAN network
- Also available is an optional web-based service for provisioning, monitoring, and configuration of sensors in the field
- Seamlessly integrate with any LoRaWAN gateway in addition to the MultiTech portfolio of LoRaWAN gateways

FEATURES

- Based on LoRaWAN wireless technology
- Optimized Radio performance by balancing performance with long battery life and excellent network performance
- Very long range, up to several miles
- Excellent wireless penetration through structures such as walls and floors
- Automatic error reporting through supervisory messages
- Over the air configuration
- Seamless integration into any cloud service. BACnet integration through MultiTech Gateways.

LoRaWAN® Wireless IoT Sensors

Long-range wireless sensors for the Internet of Things (IoT)

MultiTech LoRaWAN® wireless sensors, utilize the LoRaWAN wireless standard and are all engineered for long-range, low cost, and extended battery life applications. These sensors deliver critical asset information so you understand what's happening and can react quickly when needed.

Sensor / Item

Description

Applications

LoRaWAN Door/Window Sensor for Indoor Use

The door/window sensor uses a magnet to detect open/close events for doors, windows, or other applications that use a magnet to detect close proximity.

- Building / Commercial Property
- Retail, Restaurants
- Fridges / Freezer
- Garage Doors

MultiTech Device Management Console

The MultiTech Console is an optional web-based fully integrated solution that provides sensor configuration, LoRaWAN Network Server management, configurable alerts and notifications. Sensor visualization enables you to deploy and validate your sensor-to-cloud solution immediately, without spending weeks or months on system integration efforts.

SENSOR SPECIFICATIONS OVERVIEW

Item / Type	Description		
LoRaWAN® Region	US/Canada	Europe/United Kingdom	Australia/New Zealand
Sensor Type	LoRaWAN Door/Window (Indoor Use)		
Part Number	RBS3010NA01BN00	RBS3010EU01BN00	RBS3010AU01BN00
LoRa® Wireless			
Frequency Band (MHz)	902-928	863-870	915-928
Channel Plan	US915	EU868	AU915/AS923
Protocol	LoRaWAN compliant		
Antenna	Peak (typical) antenna gain is 0.3dBi for US/Canada/EU/GB and 0.8dBi for AU/NZ		
Power			
Battery Powered	Yes		
Battery Type / Qty	CR123A x 1		
User Replaceable	Yes		
Battery Life	Optimized solution: up to 10 years battery life (https://radiobridge.com/documents/Sensor%20Battery%20Estimator.xlsx)		
Physical Description			
Physical Dimensions (LxWxH)	2.81" x 1.46" x 0.75" (71.37mm x 37.08mm x 19.05mm) Magnet: 1.25" x 0.7" x 0.5" (31.75 x 1.77mm x 12.7mm)		
Physical Weight	44g including magnet and magnet enclosure		
Enclosure Type	ABS Plastic, IP30, indoor rated		
Mounting	Double Sided Tape or Screw		
Range	States (Open & Close) with customizable state timing threshold		
Resolution	Boolean State (Programmable setting time for open or close)		
Accuracy	10-15mm Detection Distance		
Environmental			
Operating Temperature	-40° to +50°C		
Operating Humidity	10 - 90% (non-condensing)		
Storage Temperature	-40° to +45°C (Battery life may be impacted due to temperature fluctuation)		
Certifications			
Compliance	FCC/IC, REACH, ROHS	CE, RED, UKCA, REACH, ROHS	AS/NZS CISPR 22; RCM; AS/NZS 4268:2012 + a1:2013, MPE Standard 2014; AS/NZS 62368.1:2018 / IEC 62368-1:2014
Warranty	2-Years / www.multitech.com/legal/warranty		

See user guide for more information.

ORDERING INFORMATION

MultiTech Sensors

Model	Description	Region
RBS3010NA01BN00	LoRaWAN Door/Window Sensor for Indoor Use (1 Pk)	United States/ Canada
RBS3010EU01BN00	LoRaWAN Door/Window Sensor for Indoor Use (1 Pk)	European Union/ United Kingdom
RBS3010AU01BN00	LoRaWAN Door/Window Sensor for Indoor Use (1 Pk)	Australia/ New Zealand

Services & Warranty

MultiTech’s comprehensive Support Services programs offer a full array of options to suit your specific needs. These services are aimed at protecting your investment, extending the life of your solution or product, and reducing total cost of ownership. Our seasoned technical experts, with an average tenure of more than 10 years, can walk you through smooth installations, troubleshoot issues and help you with configurations.

Technical Support Services

At MultiTech, we’re committed to providing you personalized attention and quality service while providing you a quick response to your product support needs. We have several options of support for you to choose from.

For additional information on Support Services as well as other service offerings, please contact your MultiTech representative or visit www.multitech.com/support.go
